

What the Bible teaches concerning Homosexuality and Gender

Pastor Jeffrey S. Lynn

In this day with so many different teachings and beliefs coming from so many various sources it is of utmost importance to go to the only reliable source for the correct answer. The Word of God (The King James Bible).

GENDER

Gender-1828 Websters Dictionary- A sex, male or female.

- A Stanford study claims the following “Sex and gender interact: The term gender was introduced in the late 1960s **to reject biological determinism that interprets behavioral differences as the outcomes of biological disposition.**”
- Gender- Today- a subclass within a grammatical class of a language that is partly arbitrary but also partly based on distinguishable characteristics and that determines agreement with and selection of other words or grammatical forms... WHAT? 2nd Definition given is- the behavioral, cultural, or psychological traits typically associated with one sex

Originally Gender equaled biological sex, in the 60s people claimed it was a word used to “reject biological determinism that interprets behavioral differences as the outcomes of biological disposition” and today gender is considered a social construct not something scientific.

Whatever words you use, whatever pronouns are preferred, here is what the Bible says concerning gender/sex. **Genesis 1:27, 5:2, Matthew 19:4, Mark 10:6.** Male, Female and nothing else.

What if I feel like I am supposed to be a different gender than I am? Deuteronomy 22:5. What is the definition of Abomination? Extremely hated, the object of detestation.

What does science say? XX Chromosomes is female, XY Chromosomes is male. .02% or 1 of every 5,000 people born have a condition known as ambiguous genitalia where it is initially unclear which gender a baby is. This is when parents have medical professionals determine the cause and determine which gender the child is medically. There is never a 50/50 baby, there is always an indication as to which way a baby should be scientifically due to hormones, parts, etc.

For those who feel they are trapped in the wrong gender Transgender, etc., science has until very recently considered this a mental disorder for which treatment was encouraged.

FACT: Over 90% of children who at one point claim to be transgender grow out of it and return to identifying themselves the way God sees them. To medically and surgically alter a CHILD to fit a transgender narrative is ABUSE that cannot be undone.

HOMOSEXUALITY

Genesis 18:20 “And the LORD said, Because the cry of Sodom and Gomorrah is great, and because their sin is very grievous;” In this portion we will establish through God’s word and factual data the following 5 truths

Homosexuality is a sin

It is not genetic

There are no Homosexual Christians

Homosexuals can be saved

Homosexuality has consequences

1. Homosexuality is a sin,
 - a. We see in this story of Sodom and Gomorrah that part of their wickedness was the practice of homosexuality **Genesis 19:4-9.**
 - b. Many times when a king tries to turn Israel back to God they get rid of the homosexuals **1st Kings 15:12, 1st Kings 22:46, 2nd Kings 23:7.**

- c. The new testament is clear on Homosexuality **Romans 1:22-28** Here we see in verse **23** religious misbehavior, in verse **24** heterosexual misbehavior, in verse **26** female homosexual behavior, and in verse **27** male homosexual behavior.

God in His word is very clear that marriage is between one man and one-woman **Matthew 19:4-6**, God consistently condemns homosexuality and even refers to it as an abomination **Leviticus 20:13**. The Bible is very clear that homosexuality is a sin that results from man turning away from God and God leaving man to his own ways. **Romans 1**.

2. It is not genetic

- a. Numerous studies have been performed in an attempt to find some genetic trait that links homosexuality and proves people to be “born that way” no evidence has been found at all to support this theory. In fact studies conducted from 1950-1979 asked practicing homosexuals whether they were born that way and over 90% said no they were not born that way.
- b. Look to scripture **Romans 1:18-19**
NOTE: every homosexual in America knows what the Bible says about them and they hate God for it and anyone who holds to the truth of His word, here the Bible says that they know the truth... Verses **20-22** they “became” which means that they were not originally what they ended up being.
- c. Homosexuality cannot be a genetic trait passed down through the ages because were anyone to act upon the trait they would have no children to pass it along to. Man plus man equals no baby and adoption doesn’t pass genetics from the father to the child.
- d. Even if people were born with a predisposition to homosexuality which they are not, a predisposition to a certain sin does not grant that individual license from God to commit that sin. Predisposed to drink? Still wrong Predisposed to lie? Still wrong. Homosexuality is not genetic but even if it were it would not be an excuse to partake in it which brings us to our next point.

3. There are no homosexual Christians

- a. All men who are truly saved by God’s grace have been given a promise in **Hebrews 13:5** that Christ (who is God manifest in the flesh) will never leave us or forsake us. This is a wonderful promise from God. Look again at **Romans 1:20-28**, verse **24** God gave them up, verse **26** God gave them up, verse **28** God gave them over... This does not sound like the promise in **Hebrews 13:5**. Homosexuality is what results when a sinner turns so far from God that God just says ok have it your way, verse **24**.
- b. When we say there are no homosexual Christians we are referring to those who have a desire in their heart to commit homosexuality. At times a Christian may have such a burning desire in their heart to hurt their parents that they think what can I do to shake mom and dad to the core and break their hearts. Fornication would be bad but everyone does that, what is the worst thing I can do in my life to hurt my Christian parents, I can defile myself with homosexuality. Eventually as we head down this road and homosexuality is no longer enough to get the desired attention bestiality and pedophilia will rise in acceptance in America. In fact they have already begun to campaign for pedophiles saying that they aren’t sex perverts or child molesters they are simply minor attracted people, or M.A.P and they are trying to get their acronym added to the LGBT+ movement which now stands at LGBTQQIAAP, Lesbian, Gay, Bisexual, Transgender, Queer, Questioning, Intersex, Allies, Asexual and Pansexual

So when I say there are no homosexual Christians I am not saying that no Christian could ever commit a homosexual act but that no Christian could ever commit that act out of a desire within their heart to do so.

4. Homosexuals can get saved

- a. Homosexuality is a sin way up there with murder, pride, and blasphemy but God states in His word, *“For whosoever shall call upon the name of the Lord shall be saved.”* **Romans 10:13**
Matthew 12:31a *“Wherefore I say unto you, All manner of sin and blasphemy shall be forgiven unto men:...”*

That being said, **Acts 2:38, Luke 24:47** the Bible clearly teaches that to be saved we must repent of our sins, repentance is “Sorrow or deep contrition for sin, as an offence and dishonor to God, a violation of His holy law, and the basest ingratitude toward a being of infinite benevolence. This is accompanied and followed by amendment of life.” Just as a murderer cannot get saved and continue on killing people like nothing ever happened a homosexually cannot get saved and continue in their sin. They can have “an experience” and “pray a prayer” but true salvation brings repentance.

- b. Some argue that because homosexuality is considered an abomination to God that homosexuals cannot be saved but this is an ignorant position as many things including pride are called abominations to God.

5. Homosexuality has consequences

- a. All sin has consequences, we reap what we sow but some sins consequences here on earth are different than others. Example Fornication *“Flee fornication. Every sin that a man doeth is without the body; but he that committeth fornication sinneth against his own body.”* **1st Corinthians 6:18** God says fornication hurts you.
- b. The hurt of homosexuality is clear, Turn back to **Romans 1:26-27**, that phrase *“receiving in themselves that recompence of their error which was meet.”* Homosexuality was considered a mental disorder by the American psychiatric society up until the news media and Hollywood started to normalize it in the 70's.

Psychology today article states “In 1973, the American [Psychiatric](#) Association (APA) asked all members attending its convention to vote on whether they believed homosexuality to be a mental disorder. 5,854 psychiatrists voted to remove homosexuality from the DSM, and 3,810 to retain it.

The APA then compromised, removing homosexuality from the DSM but replacing it, in effect, with "[sexual orientation](#) disturbance" for people "in conflict with" their sexual orientation. Not until 1987 did homosexuality completely fall out of the DSM.

Meanwhile, the World Health Organization (WHO) only removed homosexuality from its ICD classification with the publication of ICD-10 in 1992, although ICD-10 still carries the construct of "ego-dystonic sexual orientation". In this condition, the person is not in doubt about his or her sexual preference, but "wishes it were different because of associated psychological and behavioral disorders".

Homosexuality is often described as a lifestyle when in fact a more accurate term would be a death style, it is reported that the average homosexual has between 50-70 “partners” per year.... when you consider (which I do not recommend), that homosexual acts involve a part of the body designed to eliminate waste it is no surprise that disease is rampant in the homosexual community. Some facts for you

1. Fewer than 2% of homosexuals live to the age of 70
2. According to “is homosexual activity normal” by DR E Fields the median age of a homosexual person who dies of GRID is 39, the average age of death for all homosexuals is 42. IN AMERICA
3. The average age of death for lesbians is 44
4. The average age of death for married heterosexual men is 75 and for women 79.

Homosexuality literally cuts people’s lives in half.

GRID is the original name of the disease Gay Related Immune Deficiency but to normalize homosexuality and make people more compassionate and worried that anyone could get the disease they changed the name to AIDS.

The fact of the matter is that GRID or AIDS never spread to the heterosexual community in significant numbers, and it only did spread to heterosexuals when they were victims of someone else's depravity. Tainted blood from blood banks, dirty needles in drug users, or acts of rape or molestation.

The myth of heterosexual aids is a book written by Miko Femento who worked for the Center for Disease control in Atlanta, he published the facts that aids was a disease that was undeniably limited to the homosexual lifestyle. He set forth for the CDC that careful control of the blood donor supply and rounding up heroin users would ensure that no heterosexual ever needed to worry about the disease. He wrote the book to calm the fears of the American people and was fired for it.

A study of 6,714 homosexual obituaries across the U S revealed that 3% of 6574 men and 20% of 140 lesbians had died violently. These numbers are off the charts compared to heterosexuals.

1.4% were murdered, that rate is over one hundred times higher than the rate for normal people.

.6% of sodomites and 5.6% of lesbians committed suicide rates that are dozens of times higher than normal people.

.6% of sodomites and 4.3% of lesbians died in car accidents a rate 17 times higher than for heterosexuals

Romans 1:27 they are receiving in themselves the recompense of their error

Hate crime FACTS: Hate crime laws are laws put into effect to force things like homosexuality to be protected from any kind of truth about the error or disaster of their ways and to punish God fearing people into compromise.

1. The number of assaults upon homosexuals by non-homosexuals is greatly exaggerated.
2. Hate crimes can be as simple as name calling, apparently the first amendment no longer applies.
3. Violent acts against homosexuals seldom occur unless they are the result of the homosexual trying to seduce an unwilling person.
4. Most violence carried out against homosexuals is actually committed by other homosexuals, this small group of the populace has the highest domestic abuse rate.
5. 50% of reports to a hotline for reporting abuse against homosexuals consisted of incidents where one homosexual attacked another homosexual yet these attacks are simply reported as being hate crimes committed against a homosexual with no mention that it was not a normal heterosexual that committed the crime.
6. Domestic abuse is the 3rd largest health problem facing the lgbt community trailing only aids and substance abuse
7. 6,779 married couples surveyed by j Sorenson established that in traditional heterosexual marriages rates of domestic violence were just under 5% per year while rates among co-habituating homosexuals were just over 25%.

In conclusion:

Regarding Gender and Sexuality God's Word is very clear and is also the very best way to live a LONGER HEALTHIER HAPPIER and LESS VIOLENT life. These topics are very emotional for some and so as with any truth from God's Word we should remember **Jude 22-23** *"And of some have compassion, making a difference: And others save with fear, pulling them out of the fire; hating even the garment spotted by the flesh."*

We ought to tell the truth in love, show the results of sin, and pray that the sinner will repent and put their faith and trust in Jesus Christ for the salvation of their soul.
